

CIVIL LITIGATION

Known for versatility, imagination, and the ability to get results, our sophisticated litigation and trial practice has represented clients in some of the largest disputes in Maine history. The core of our strategy is to ensure that every step we take aligns with your business interests and goals. We keep you informed and involved, making sure you understand the costs and benefits of everything we do.

Alternative Dispute Resolution:

We recognize and believe in the value of alternative dispute resolution (ADR). We review the benefits of ADR with you during the initial stages of engagement, noting the need for discretion in deciding when to introduce the subject of ADR in litigation. ADR can be highly effective—especially when the other side knows it is up against aggressive counsel. Fortunately for our clients, that is the reputation we bring to the table.

Representation before all trial and appellate federal (multi-district) and state courts and administrative agencies in:
